

Dear Parents/Caregivers,

As a community of educators we have come together to build professional relationships and consistency throughout our educational settings. Most of all this work is providing a smooth and supported transition from Kindergarten to Prep for your child.

Through this signed document, we request your permission for our Kindergarten teachers and Prep teachers from Peregian Springs State School to speak with one another regarding your child and how to best provide for their educational needs and transition into school.

At the end of each year, Peregian Springs State School staff visit our major feeder kindergartens to discuss a range of elements that may impact your child's transition to school. These may be things regarding positive and negative friendship circles, curriculum interests, strengths/weaknesses as well as any other impacting elements that will ensure your child is offered a transition to school that suits their specific needs and caters for their learning styles and interests.

Our transition opportunities offered are:

- Parent information sessions
- Pre Prep playgroups
- Kindergarten visits by PSSS staff
- Transition statements passed on from Kindergarten teachers
- Kindergarten visits to the school site

We all look forward to ensuring that your child's progression to school is a successful and happy one, and are keen to do as much as we can to ensure that this is the case.

Yours Sincerely

Gwen Sands
