Principal  
Peregrine Springs State School

10 December 2024

Dear Victoria.

The William Glasser International Glasser Quality School committee expresses our strong support for Peregrine Springs State School for their continuing recognition as a William Glasser International Glasser Quality School. This achievement is a testament to the school's commitment to creating a positive and supportive learning environment for all students.

Peregrine Springs State School has dedicated significant time and resources to training staff, parents and the wider community in the principles of Choice Theory. By implementing these principles in the classroom, playground, and community, the school has demonstrated a profound understanding of student needs and motivation. This approach fosters a sense of responsibility, ownership, resilience and belonging among students, leading to improved academic performance, behaviour, and overall well-being.

Coverification is a two-step process. First, the school conducts a thorough self-evaluation to assess its ongoing commitment to Choice Theory principles. Second, a small team of qualified instructors, members of the William Glasser International Glasser Quality School committee, coverifies the school's adherence to these principles. Peregrine Springs State School undertook this first phase in 2019.

To maintain this designation, the school undergoes the re-coverification process every four years. This ensures continued dedication to the high standards associated with a Glasser Quality School.

The benefits of Choice Theory are far-reaching. By empowering students to make choices and take responsibility for their actions, the school is cultivating essential life skills such as problem-solving, decision-making, and self-discipline. This approach not only benefits students but also creates a more positive and collaborative school culture.

We are confident that Peregrine Springs State School will continue to thrive as a William Glasser International Glasser Quality School. Their dedication to providing high-quality education and fostering positive relationships are truly commendable. We wholeheartedly support the school's efforts and encourage you to share this wonderful achievement widely.

Sincerely,

Bette Blance Chair of the William Glasser International Glasser Quality School Committee
